***NEXT MEETING:***

**Sunday 10/8/2017**

Set-up 2:30 PM; program begins at 3:00 PM.

1024 Carrington Place, off Rio Road across from Church of Our Savior

***PRESIDENT'S MESSAGE:***

Fall has arrived and the cooler temps dictate that we move our warmer growing plants into the safety of our homes and greenhouses. That is always a challenge for plants that happen to be in spike at this critical time. For the cooler growing orchids we look forward to a few more weeks of outdoor growth and then face the same challenge with those. Our October CHAOS meeting is also fast approaching (8 October). Come join us as we learn more about our hobby.

We will present our new slate of officers to the group at the October meeting (which to my knowledge will consist primarily of our current officers). If you are currently serving and wish to not be considered for your position in 2018, please let it be known to the membership at the upcoming meeting. If you would like to be considered for one of our officer positions (competition never hurts), you should also make this fact known at the upcoming meeting. We will vote on the new slate of officers at our November meeting.

The October 2017 meeting of the Charlottesville Orchid Society will be held on Sunday, 8 Oct. The meeting will take place at 1024 Carrington Place (our normal venue across Rio road from the Church of Our Saviour). Setup will begin at 2:30 with the formal meeting beginning at 3:00. Members are encouraged to bring snacks to share. Because our speaker is bringing plants for sale, there will be no plant sales by CHAOS members. Our meeting should be ending around 5:00. If you are not one of those members bringing large numbers of plants for the display table (and hence busy carting them back out after the meeting), please consider staying a little later and helping to restore the room to its regular state.

Dudley

***SPEAKER INFORMATION:***

Our speaker for October 8 will be Linda Wilhelm. When the orchid hobby got out of hand she and her husband Rolf started their business Woodland Orchids. Now their main breeding efforts are miniature and compact cattleya hybrids. She will be bringing a variety of plants for sale.
